

Where Female Leaders Flourish

A 12 month online leadership programme that will establish confidence and develop irrefutable influence

Over the years I've helped hundreds of passionate and experienced women leaders across many industries.

Despite the differences in their markets and the crazy demands of their roles, they all wanted the same things.

They wanted to feel:

- Respected and supported by their peers and colleagues
- Confident that they had what it takes to thrive in the face of any leadership challenge
- That they didn't have to turn into a different person to lead effectively. They could do it without the 'masks' or morphing into a dragon!

They wanted to know:

- Their team had their back and they were able to get the best out of them
- Their skills to handle the 'tough stuff' were well developed, tried and trusted.

- They knew their way around the emotions of the workplace and how not to get chewed up by politics and drama
- These accomplished, intelligent women were not new to leadership, yet being a leader was not going as they'd hoped and was taking its toll:
- Their stomachs would sink when certain names popped into their inbox
- Work spilled everywhere into their lives, into their sleep - often both a 3pm and 3am affair!

The difference between those who flourished and those who struggled was getting the right support, at the right time, free of the judgement and conditions that can often come along with work-based training.
